## BANK OF MONTREAL

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended April 30, 2006
(Unaudited)

1. Basis of Presentation

These consolidated financial statements should be read in conjunction with the notes to our consolidated financial statements for the year ended October 31, 2005 as set out on pages 96 to 133 of our 2005 Annual Report. These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("GAAP") using the same accounting policies and methods of computation as were used for our consolidated financial statements for the year ended October 31, 2005.
2. Changes in Accounting Policy

Variable Interest Entities
On November 1, 2004, we adopted the Canadian Institute of Chartered Accountant's ("CICA") new accounting requirements on the consolidation of variable interest entities ("VIEs"). As a result, we consolidated our customer securitization vehicles as of November 1, 2004. The impact on our Consolidated Balance Sheet on November 1, 2004, was an increase in other assets of $\$ 21,160$ million, a decrease in derivative financial instrument assets of $\$ 67$ million, an increase in other liabilities of $\$ 21,150$ million, a decrease in derivative financial instrument liabilities of $\$ 15$ million and a decrease in opening retained earnings of $\$ 42$ million.

The impact on opening retained earnings arose because interest rate swaps held by our VIEs to hedge their exposure to interest rate risk did not qualify for hedge accounting prior to consolidation. Since the new rules required us to reflect the results of the consolidated VIEs as if they had always been consolidated, without restatement of prior periods, the amount of mark to market losses prior to November 1, 2004 was recognized through our opening retained earnings. These derivatives qualified for hedge accounting while the VIEs were consolidated.

On April 29, 2005, we completed the restructuring of our customer securitization VIEs and as a result they no longer met the criteria for consolidation. The impact on the Consolidated Statement of Income of deconsolidating these entities on April 29, 2005, was an increase in non-interest revenue, other, of $\$ 44$ million, an increase in income taxes of $\$ 7$ million and an increase in net income of $\$ 37$ million, representing the reversal of the unamortized mark to market losses on swaps that had been charged against retained earnings.

Our involvement with these and other VIEs is summarized in Note 8 to our consolidated financial statements for the year ended October 31, 2005, as set out on pages 105 and 106 of our 2005 Annual Report.
3. Allowance for Credit Losses

The allowance for credit losses recorded in our Consolidated Balance Sheet is maintained at a level which we consider adequate to absorb credit-related losses on our loans, customers' liability under acceptances and other credit instruments. The portion related to other credit instruments is recorded in other liabilities in our Consolidated Balance Sheet.

A continuity of our allowance for credit losses is as follows:

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended April 30, 2006
(Unaudited)

## 4. Securitization

During the quarter ended April 30, 2006, we securitized residential mortgages totalling $\$ 1,304$ million for total cash proceeds of $\$ 1,279$ million ( $\$ 1,804$ million and $\$ 1,775$ million respectively, for the six months ended April 30, 2006). The key weighted average assumptions used to value the deferred purchase price for these securitizations was an average term of 4.2 years, a prepayment rate of $8.00 \%$, an interest rate of $4.64 \%$ and a discount rate of $4.26 \%$ ( 4.4 years and $9.72 \%, 4.74 \%$ and $4.10 \%$ respectively, for the six months ended April 30, 2006). There were no expected credit losses as the mortgages are guaranteed by third parties. We retained responsibility for servicing these mortgages. We recorded $\$ 11$ million of losses in non-interest revenue, securitization revenues, $\$ 36$ million of deferred purchase price in other assets and $\$ 10$ million of servicing liability in other liabilities related to the securitization of those loans ( $\$ 10$ million, $\$ 50$ million and $\$ 13$ million respectively, for the six months ended April 30, 2006).

In addition, gains on sales of loans sold to all revolving securitization vehicles were $\$ 9$ million, for the quarter ended April 30, 2006 (gains of $\$ 22$ million for the six months ended April 30, 2006).

## 5. Acquisition

Villa Park Trust and Savings Bank
On December 1, 2005, we completed the acquisition of Chicago-based Villa Park Trust and Savings Bank ("Villa Park"), a community bank, for total cash consideration of $\$ 76$ million. The results of Villa Park's operations have been included in our consolidated financial statements since that date. The acquisition of Villa Park provides us with the opportunity to expand our banking services in the Chicago, Illinois market. As part of this acquisition, we acquired a core deposit intangible asset, which will be amortized on an accelerated basis over 10 years. Goodwill related to this acquisition is not deductible for tax purposes. Villa Park is part of our Personal and Commercial Client Group - Chicagoland Banking reporting segment.

The estimated fair values of the assets acquired and the liabilities assumed at the date of acquisition are as follows:

| (Canadian \$ in millions) | Villa Park |
| :--- | ---: | ---: |
| Cash resources | $\$$ |
| Securities | 16 |
| Loans | 54 |
| Premises and equipment | 247 |

| Other assets | 7 |
| Total assets | 4 |
| Deposits | 376 |
| Other liabilities | 296 |
| Total liabilities | 4 |
| Purchase price | 300 |

The purchase price allocation is subject to refinement as we complete the valuation of the assets acquired and liabilities assumed.
During the quarter ended January 31, 2005, we acquired Mercantile Bancorp, Inc., a community bank, for total cash consideration of \$194 million.

## 6. Employee Compensation

## Stock Options

During the six months ended April 30, 2006, we granted a total of 1,379,100 stock options. The weighted-average fair value of these options was $\$ 10.18$ per option and was determined using a trinomial option pricing model, based on the following weighted-average assumptions:

| For stock options granted during the six months ended April 30, 2006 |  |
| :--- | ---: |
| Expected dividend yield | $3.1 \%$ |
| Expected share price volatility | $20.2 \%$ |
| Risk-free rate of return | $4.0 \%$ |
| Expected period until exercise | 7.2 years |

Future Change in Accounting Policy
During the quarter ended April 30, 2006, the CICA issued proposed requirements for comment on stock-based compensation. Under these proposed requirements, stock-based compensation granted to employees eligible to retire should be expensed at the time of grant. Stock-based compensation granted to employees eligible to retire during the vesting period, should be expensed over the period from the grant date to the date that the employee is eligible to retire. Currently, these amounts are expensed over the vesting period. The effective date has not been finalized; however, we expect to adopt these new requirements in the year ended October 31, 2006 on a retroactive basis. We do not expect this change to have a material impact on our Consolidated Statement of Income for the year ending October 31, 2006.

7. Subordinated Debt

On March 14, 2006, we redeemed all of our $7.40 \%$ Debentures, Series 19 , due 2011, totalling $\$ 125$ million. The debentures were redeemed at a redemption price of 100 per cent of the principal amount plus unpaid accrued interest to the redemption date.

On April 21, 2006, we issued $\$ 700$ million of subordinated debt under our Canadian Medium-Term Note Program. The issue, Series D Medium-Term Notes, First Tranche, is due April 2021. Interest on this issue is payable semi-annually at a fixed rate of $5.10 \%$ until April 21, 2016, and at a floating rate equal to the rate on three month Bankers' Acceptances plus $1.00 \%$, paid quarterly, thereafter to maturity.

On May 9, 2006, we redeemed all of our $8.15 \%$ Debentures, Series 21 , due 2011, totalling $\$ 300$ million. The debentures were redeemed at a redemption price of 100 per cent of the principal amount plus unpaid accrued interest to the redemption date.
8. Share Capital

During the quarter ended April 30, 2006, we repurchased $1,861,300$ common shares at an average cost of $\$ 65.63$ per share, totalling $\$ 122$ million. During the quarter ended April 30, 2005, we repurchased $3,252,800$ common shares at an average cost of $\$ 55.48$ per share, totalling $\$ 180$ million. During the six months ended April 30, 2006, we repurchased $2,399,500$ common shares at an average cost of $\$ 64.45$ per share, totalling $\$ 154$ million. During the six months ended April 30, 2005, we repurchased 5,299,300 common shares at an average cost of $\$ 55.74$ per share, totalling $\$ 295$ million.

There have been $3,215,800$ common shares repurchased under the existing normal course issuer bid that expires on September 5 , 2006 and pursuant to which we are permitted to repurchase up to $15,000,000$ common shares.

During the quarter ended January 31, 2006, we adopted the new United States accounting standard on stock-based compensation prospectively, beginning with grants issued in the quarter. Under United States GAAP, stock-based compensation granted to employees eligible to retire should be expensed at the time of grant. The impact of adopting this standard was to decrease non-interest expense by $\$ 4$ million ( $\$ 2$ million after tax) in the quarter ended April 30, 2006 and increase non-interest expense by $\$ 38$ million ( $\$ 27$ million after tax) in the six months ended April 30, 2006. Under Canadian GAAP, stock-based compensation is expensed over the vesting period.

## 10. Operating and Geographic Segmentation

## Operating Groups

We conduct our business through operating groups, each of which has a distinct mandate. We determine operating groups based on our management structure and therefore our groups and results attributed to our groups may not be comparable with those of other financial services companies. We evaluate the performance of our groups using measures such as net income, return on equity, net economic profit and non-interest expense-to-revenue (productivity) ratio.

Beginning in the quarter ended January 31, 2006, we have amended our segment information to include both Personal and Commercial Client Group - Canada and Personal and Commercial Client Group - Chicagoland Banking as reporting segments. Prior period information has been restated to reflect this new reporting basis.

## Personal and Commercial Client Group

Personal and Commercial Client Group is comprised of two operating segments - Personal and Commercial Client Group - Canada and Personal and Commercial Client Group - Chicagoland Banking.

## Personal and Commercial Client Group - Canada

Personal and Commercial Client Group - Canada ("P\&C Canada") offers a full range of products and services to personal and business clients in Canada through branches and direct banking channels such as telephone banking, online banking and a network of automated banking machines.

## Personal and Commercial Client Group - Chicagoland Banking

Personal and Commercial Client Group - Chicagoland Banking ("P\&C Chicagoland Banking") offers a full range of products and services to personal and business clients in the United States, primarily in the Chicago area and Northwest Indiana, through branches and direct banking channels such as telephone banking, online banking and a network of automated banking machines.

## Private Client Group

Private Client Group ("PCG") brings together all of our wealth management businesses. Operating primarily in Canada and the United States, PCG serves a full range of North American client segments, from mainstream to ultra-high net worth, as well as select institutional market segments. PCG offers its clients a broad range of wealth management products and services, including full-service and direct investing, private banking and investment products, providing the tools they need to accumulate, protect and grow their financial assets.

## Investment Banking Group

Investment Banking Group ("IBG") combines all of our businesses serving corporate, institutional and government clients. In Canada, its client base comprises large corporations and institutions across a broad range of industry sectors. In the United States, it serves middle-market and institutional clients in selected sectors. IBG also serves institutional and government clients in the United Kingdom, Europe and Asia. It offers clients complete financial solutions across the entire balance sheet, including public and private debt and equity underwriting, cash management, corporate lending, securitization, foreign exchange and trade finance. The group also offers financial advisory services in mergers and acquisitions and restructurings, while providing investing clients with research, sales and trading services.

## Corporate Support

Corporate Support includes Technology and Solutions ("T\&S") and the Corporate units that provide expertise and governance support in areas such as strategic planning, law, finance, internal audit, risk management, corporate communications, economics, corporate marketing, human resources and learning. Operating results for Corporate Support include revenues and expenses associated with certain securitization activities, the hedging of foreign-source earnings and activities related to the management of certain balance sheet positions and our overall asset liability structure.

## BANK OF MONTREAL

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

## 10. Operating and Geographic Segmentation (continued)

T\&S manages, maintains and provides governance over information technology, real estate, operations services and sourcing for the Bank. The unit focuses on enterprise-wide priorities that improve quality and efficiency.

Operating results for T\&S are included with Corporate Support for reporting purposes. However, costs of T\&S services are transferred to P\&C, PCG, and IBG and only minor amounts are retained in T\&S's results. As such, results for Corporate Support largely reflect operating results of Corporate units.

Corporate Support also includes residual revenues and expenses representing the differences between actual amounts earned or incurred and the amounts allocated to operating groups.

## Basis of Presentation

The results of these operating groups are based on our internal financial reporting systems. The accounting policies used in these groups are generally consistent with those followed in the preparation of the consolidated financial statements as disclosed in Notes 1 and 2. Notable accounting measurement differences are the taxable equivalent basis adjustment and the provision for credit losses, as described below.

## Taxable Equivalent Basis

We analyze net interest income on a taxable equivalent basis ("teb"). This basis includes an adjustment which increases GAAP revenues and the GAAP provision for income taxes by an amount that would raise revenues on certain tax-exempt securities to a level that would incur tax at the statutory rate.

Analysis on a teb basis neutralizes the impact of investing in tax-exempt or tax-advantaged securities rather than fully taxable securities with higher yields. It reduces distortions in net interest income related to the choice of tax-advantaged and taxable investments.

## Provisions for Credit Losses

Provisions for credit losses are generally allocated to each group based on expected losses for that group over an economic cycle. Differences between expected loss provisions and provisions required under GAAP are included in Corporate Support.

## Inter-Group Allocations

Various estimates and allocation methodologies are used in the preparation of the operating groups' financial information. We allocate expenses directly related to earning revenue to the groups that earned the related revenue. Expenses not directly related to earning revenue, such as overhead expenses, are allocated to operating groups using allocation formulas applied on a consistent basis. Operating group net interest income reflects internal funding charges and credits on the groups' assets, liabilities and capital, at market rates, taking into account relevant terms and currency considerations. The offset of the net impact of these charges and credits is reflected in Corporate Support.

## Geographic Information

We operate primarily in Canada and the United States but also have operations in the United Kingdom, Europe, the Caribbean and Asia, which are grouped in Other Countries. We allocate our results by geographic region based on the location of the unit responsible for managing the related assets, liabilities, revenues and expenses, except for the consolidated provision for credit losses, which is allocated based upon the country of ultimate risk.

Prior periods have been restated to give effect to the current period's organization structure and presentation changes.
